

#0003	Add New Books	2.0 units
As a librarian, I want to add new books to the library's inventory, So that they are available for users to borrow.		

The screenshot shows a web application for library management. On the left is a dark sidebar with navigation links: Information, Book management (selected), Reader management, Request management, Return book, and Statistical. The main content area has a 'Search:' input field at the top. Below it is a table with 6 columns: # Book ID, # Book Name, # Author, # Category, # Quantity, and # Publish Date. The table contains 8 rows of book data. At the bottom is a form to add a new book with fields for Book ID, Book Name, Author, Category, Quantity, and Publish Date, each with an 'Add' button. There are also buttons for 'Add Book', 'Update Book', 'Refresh', and 'Delete Book' at the very bottom.

# Book ID	# Book Name	# Author	# Category	# Quantity	# Publish Date
B16542	Book01	new author	new category	9	2024-08-14
B1TEDV	Kinh Vn Hoa	Nguyễn Nhật Ánh	Thiếu nhi	10	1995-01-01
B33FSB	Pride and Prejudice	George Orwell	Truyện ngắn	20	1941-01-01
B3JFFD	Truyện Kiều	Nguyễn Du	Cổ điển	14	1820-01-01
B4GDEV	1984	Charlotte Bronte	Truyện ngắn	5	2024-08-05
BFHD8C	Dế Mèn Phiêu Lưu Ký	Tô Hoài	Thiếu nhi	4	1941-01-01
BNNNN	No Book	Nguyễn Nhật Ánh	Văn học	0	2024-08-22

## Confirmation:

### 1. Success:

- o The new book is added to the system and visible in the catalog.
- o Inventory is updated to show the book's availability.

### 2. Failure:

- o If required details (e.g., ISBN) are missing, display "Please fill in all required fields."
